#### AMENDMENTS TO THE SPECIFICATION:

Please amend the indicated paragraphs of the specification in accordance with the amendments indicated below.

Page 1: Between the Title and the 1<sup>st</sup> full paragraph, amend the heading as follows:

# State of the Art Background of the Invention

1<sup>st</sup> full paragraph, amend as indicated below:

The invention starts out from relates to a spraying tool of the class of claim 1.

## Page 2: Amend the heading as follows:

### The Invention and its Advantages Summary of the Invention

1<sup>st</sup> full paragraph, amend as follows:

On the other hand, the inventive spraying tool with the characterizing distinguishing features of claim 1 has the advantage that the spraying nozzles are controlled only over the controlling means and, with that, a change in the process control is simplified, and the spraying nozzles, adapted to the different media, can be used.

Page 3: 1st full paragraph, amend as follows:

The spraying of die-casting molds can be divided into four functions:

- a) cleaning the molds with compressed air,
- b) cooling overheated sections of the mold,
- c) applying the release agent ever the whole surface of the mold affected by the material, and
- d) lubricating movable parts.

Page 5: Between the 1<sup>st</sup> and 2<sup>nd</sup> full paragraphs, delete the heading as follows:

### **Drawings**

3<sup>rd</sup> full paragraph, amend as indicated below:

Several examples of the inventive spraying tools are described in greater detail below and shown in the drawings[[,]] in which.

Between the  $3^{rd}$  and  $4^{th}$  full paragraphs, insert the following heading:

#### **Brief Description of the Drawings**

Page 6: 5<sup>th</sup> full paragraph, amend as indicated below:

Figure 10 shows a plan view of an interchangeable plate with a spraying nozzle for each spraying place, and

Between the  $6^{th}$  and  $7^{th}$  full paragraphs, amend the heading as follows:
